Inland Surveying, LLC (“Inland Surveying”), is a full service professional surveying firm located in Gwinnett County, Georgia, providing support to the Engineering, Architecture and Construction related industries. Inland Surveying is prequalified with the Georgia Department of Transportation and is registered in the Central Contractor Registration database of the United States Federal Government. Our professional expertise includes Geodetic and Local Control, ALTA/ACSM Surveys, Boundary Surveys, Topographic Surveys, Construction Staking, Transportation Rights-of-Way, Utilities, Project As-Builts, Platting, Mapping, 3-D Modeling, Wetlands and Floodplain, Flood Certificates, and Easements services.

Inland Surveying’s primary goal is repeat business with its Clients by providing high quality surveying services in a timely and professional manner. We utilize the latest software packages including AutoCAD, MicroStation, TerraModel and CAICE for the delivery of our surveying products. Our field work is completed using Robotic Total Stations and Real-Time Kinematic GPS technology allowing Inland Surveying to maximize production. Additionally, we have also integrated a highly developed field coding and automated drafting system to expedite the field observations and measurements into a final drawing.

Inland Surveying will prove to be a valuable team member to your organization by providing on-time services, meeting project schedules, value engineering services, tailoring professional scopes to meet the needs of the job, and offering cost effective creative solutions. Our projects include work for Homeowners and HOA’s, Developers, Office Parks, Retail Facilities, Multi-Family complexes, DOT, Schools, Medical Campuses, Parks and Recreation, Local Governments, Community Improvement Districts, Military Bases, and Residential Neighborhoods.

The Inland Surveying team is active in the local community, is a member of the Gwinnett County Chamber of Commerce, supports Leadership Gwinnett, volunteers for the local charities, and has partners that serve on various Boards and Advisory Committees. Our core team members are licensed professionals in Land Surveying, Landscape Architecture and Real Estate Brokerage.

Let our team provide solutions that meet your needs and exceed your expectations.
